Coaster 2009 Welcomes After The Fall!

Yesterday we were very sad to announce that **The Airborne Toxic Event** were forced to cancel their highly anticipated debut tour of Australia and New Zealand due to exceptional medical circumstances beyond their control. **The Airborne Toxic Event** were in London when front person and lead vocalist Mikel Jollett fell ill and was deemed unable to fly by doctors.

Today, Coaster HQ is very proud to announce that local Central Coast rockers **After The Fall** have come to the rescue and will be part of the Coaster 2009.

Bursting onto the Australian music scene in 2004 with their self-titled debut, **After The Fall** was thrust into the spotlight. Rollingstone Magazine named their debut one of the Top 50 Albums of the year and After The Fall were also welcomed into triple J's Hottest 100. **After The Fall**'s third album (IN) EXILE was released on the 28th Aug through Roadrunner Records & sees the band back in form and sounding better than ever

Coaster loves the Central Coast and really loves the amazing artists who call the area home. And it's a big open armed welcome home to **After The Fall**.
